QUALITY

Our Quality is committed to satisfying customers by providing them with quality products through continual improvement of our Quality management Systems.

Stringent Quality assurance measures adopted in raw material & components testing, test like chemical analysis, hardness checking, ultrasonic are carried out. Quality management principles are applied to streamline all the procedures and practices in operation to achieve high standard of efficiency. High quality performance is maintained at every stage of fabrication, welding and machining and our Quality Assurance System complies with and meets or exceeds the standards.

ISO 9001 : 2015 & IATF 16949 : 2016 CERTIFICATE

INFRASTRUCTURE

Seamless capabilities stretch to cover a range of services to offer to our customers . we strive always for precision in our manufacturing and only work with the highest certificated standards. With every project, seamless utilizes an experienced. team of certificates trained metal workers and technicians, and a reliable managment team to match. our goal is always a top quality product with an on time delivery.

All of our projects will be handled by certified welders, accompanied by a tightly required QA systems

- Fully equipped fabrication shop
- Press shop with in-house facilities
- Plasma cutting Systems
- Iron Worker Station
- Big stores for storage & stacking of inwards material
- Dedicated facility for painting of vehicles
- Dedicated area for storage & stacking of steel
- Imported welding machines
- Bandsaw & rolling machine
- DG sets for non-stop production
- Shot blasting booth
- An Independent power supply - HT Connection

IN-HOUSE DESIGN AND DEVELOPMENT CENTER

- Component engineering, design calculation, detailed design analysis
- Modelling and detailing with the help of pro-E & Auto- CAD
- Value engineering, cost reduction and prototyping
- Failure analysis & reverse engineering
- Design standardization and rationalization
- Design Porting: Redesign for material change, process change, packaging
- New technology adaption, new styling and production drawings

OUR PRODUCTS

SAPL design, develop, manufacture in home, & supply various products to our valued customers.

We understand & appreciated the challenged that the customers face regarding accuracy, complexity & deadline. we support those users and their deadlines to the best of our ability. Not only with the common off the common off the shelf item, but also diverse & custom products made especially for customers particular requirements.

All cut products are designed and tested as per the set industrial parameters to withstand the tough enviromental conditons and provide hassle free performance for longer duration of time. in addition to all this, our company is also involved in rendering heavy fabrication job by using latest techniques to attain maximum support of the customers.

AUTOMOTIVE DIVISION

Our Automotive division has played a leading role in the design, development and manufacture of Car Carriers in India since 1996

Nearly Twenty years later, we remain India's No.1 maker: building Carriers that are tough, reliable, trust worthy, refined and built to last. Today, we offer a complete portfolio Car Carrier, Car & Bike Carrier, Car Bike & Tractor Carrier, Bike & Scooter Carrier, Chassis Carriers & our vehicles are running successfully & relentlessly on roads all over India.

We have R&D facility in Pune, India and strive continuously to create a top global mobility brand. Our research and development work combined with close collaboration with customers help to ensure that our products meet the highest standards set for the automotive industry. using state-of-the-art software and world-class production methods, Seamless can provide innovative and cost-effective solutions for your applications.

CONSTRUCTION DIVISION

Our Tipper & Tip Trailers offer exceptional tonnage rankings because of super-strong chassis. Our Tip trailers have earned a reputation as the toughest and most durable trailers in the market. The rigid design minimizes twisting in the trailer when the deck is raised, which reduces the risk of tipping. From quarrying, mining and tunneling to earthmoving, material handling and waste handling, our products get through without any hassle. This versatile product is manufactured using tensile steel and other material enabling it to withstand the transport of hard and abrasive material.

Seamless also manufactures variety of bulker which are extensively demanded for carrying bulk materials in different industries such as construction, marine, cement and dry powders. Our Bulker are recognized for their high quality, excellent designs and reliability.

The experience and extensive knowledge in Bulker manufacturing and design based on a wide product range, qualifies us to offer the best solutions for customers requirements.

TESTED & CERTIFIED AS PER AIS- 113 TRAILER CODE

Manufacturing Range:

For Tipper/ Tip- Trailers :

26 CBM TO 42 CBM

We also manufacture different sizes and customize as per customers requirements

For Bulklers

20 CBM to 35 CBM

We also manufacture different size and customize as per Customers requirements

TRAILER DIVISION

We are trusted in manufacturing and supplying excellent quality trailers capable for carrying all kind of materials and loads, these are designed with continue innovations by our R&D team using fastest technologies and comes to trailer design and manufacturing and we can safely say that they are better than ever.

Our Manufacturing Range

20 Feet to 40 Feet with 2 Axles or 3 Axles

We also manufacture different size and customers requirements

Our Products	TANDEM SIZE (FT)	TRIDEM SIZE (FT)
Flatbed Trailer	20 FT TO 40 FT	26 FT TO 45 FT
Skeletal Trailer	21 FT TO 40 FT	26 FT TO 40 FT
Sidewall Trailer	23 FT TO 28 FT	26 FT TO 41 FT
Sami- Lowbed Trailer*		40 FT TO 45 FT
Bomb Cart Trailer	42FT	45FT

PROJECT DIVISION

We are proud to have a culture of diversity in our workplace. Our unique capabilities provide a 'one stop operation for our customers requirement.

Our strengths encompass the complete spectrum from heavy metal fabrication, turnkey projects.

Our customers range from DRDO/ Defense to small and/or start-up companies to world class suppliers of OEM capital equipment and machineries, Our product range includes industrial heavy structures, PEB structures, Construction equipments parts, special purpose trailers, etc salient features

Customize design as per user requirements
Product centric approach in manufacturing
